

Accessibility Statement

Musicmatch54 is committed to making our website accessible to everyone, including people who use assistive technologies such as screen readers, screen magnifiers, voice recognition software, and alternative input devices.

Our Commitment

We strive to conform to the Web Content Accessibility Guidelines (WCAG) 2.1 Level AA, published by the World Wide Web Consortium (W3C). These guidelines explain how to make web content more accessible to people with disabilities.

Ongoing Effort

Accessibility is an ongoing effort. We regularly review our site and work with our web team to address accessibility issues as they are identified, and to improve the experience for all visitors. While we continue to test and adapt our site, some areas of the site may not yet be fully accessible.

How to Reach Us

If you experience any difficulty accessing content on our website, or if you have suggestions on how we can improve accessibility, we want to hear from you. Please contact us:

- Phone: (920) 897-49285
- Email: musicmatch54wi@yahoo.com
- Or use our [contact form](#)

Report an accessibility barrier

Found something on this site you could not use? Tell us what happened and we will work to fix it. If you need the information in another format, let us know and we will get it to you.

Measures We Take

When we build and update this site we use a combination of automated accessibility testing and manual review, and we aim to keep new content consistent with WCAG 2.1 Level AA. Accessibility is part of our standard quality checks before a page goes live.

Response Time

We aim to acknowledge accessibility feedback within five business days and to resolve verified issues as quickly as we reasonably can. If you need information from this site in an alternative format while we work on a fix, please contact us using the details above and we will work to provide it.

Third-Party Content

Some content on our site is provided by third parties (for example, embedded maps, social media widgets, or review feeds). We work with reputable third-party providers, but we are not responsible for the accessibility of content hosted on systems we do not control.
